

GAS SPARGERS

For the injection of gas into wine

Features

- * Stainless steel Gd. 316 construction with ½" BSP connection
- * Non- return valve to prevent back flow of wine into gas line
- * Choice of stainless steel sinters
15 micron (standard) 2, 7 and 60 micron
- * Optional manifold to accept sparger for in-line sparging
- * Optional stainless steel quick connect fittings with 6mm hose tail (other sizes available on request)

Drop - In Spargers

Sinter Flow Rates

Sinter	Pressure Differential (PSI)	Air CFM @ 21Deg C
2 micron	10	0.78
	50	2.10
	100	3.72
7 micron	10	1.52
	50	4.21
	100	7.46
15 micron	10	1.80
	50	4.97
	100	8.82
60 micron	10	5.12
	50	14.15
	100	25.00

Suitable for barrels and tanks
